GET GROWIN' IN TEXAS

There's room to grow in Texas, and it shows. In our ever-growing green industry, there are over 75,000 independent nurseries and landscape-related businesses across the state, contributing over 20 billion dollars to the Texas economy.

— PLANTS MAKE LIFE BETTER —

Improve Your Home

Plants improve air quality, provide color, and create a more inviting space.

Improve Your Office

Having plants at work can significantly increase workplace satisfaction, improve concentration, and enhance air quality.

Improve Your Mental Health

Horticultural therapy is often used to treat people with depression, anxiety, and dementia.
