MUCH ADO ABOUT MELONS

Texas is big on watermelons. They're our biggest crop, bringing in over \$50 million a year to Texas agriculture. Here's what they bring to you:

Watermelons fight disease

With more lycopene than any other fruit or vegetable, they help decrease the risk of cancer and heart disease.

Watermelons are good for your skin

They provide 25% of your daily value of Vitamin C and 8% of your Vitamin A per serving.

Watermelons keep you hydrated

92% of the fruit is water, which is especially helpful when it's hot.
